

**IN THE UNITED STATES DISTRICT COURT  
FOR THE NORTHERN DISTRICT OF ILLINOIS  
EASTERN DIVISION**

SHANNON PARCELL, individually and on  
behalf of all others similarly situated,

Plaintiff,

v.

PARAMOUNT GLOBAL CORP.,

Defendant.

**Case No.**

**CLASS ACTION COMPLAINT**

**JURY TRIAL DEMANDED**

Plaintiff Parcell (“Plaintiff”), individually and on behalf of all other persons similarly situated, by and through her attorneys, makes the following allegations pursuant to the investigation of her counsel and based upon information and belief, except as to allegations specifically pertaining to herself and her counsel, which are based on personal knowledge.

**NATURE OF THE ACTION**

1. This is a class action suit brought on behalf of all persons with Facebook and CBS accounts who watch videos on CBS.com.

2. Paramount Global Corporation (“Defendant” or “Paramount”) develops, owns, and operates CBS.com, which offers “CBS television online,” including “primetime, daytime, late night, and classic tv episodes, videos, and information.”<sup>1</sup>

3. Plaintiff brings this action for damages and other legal and equitable remedies resulting from the illegal actions of Defendant in knowingly disclosing personally identifiable information—including a record of every video clip they view—to Facebook without consent.

---

<sup>1</sup> CBS, [www.cbs.com](http://www.cbs.com).

4. The United States Congress passed the Video Privacy Protection Act (“VPPA”) in 1988, seeking to confer onto consumers the power to “maintain control over personal information divulged and generated in exchange for receiving services from video tape service providers.” S. Rep. No. 100-599, at 8. “The Act reflects the central principle of the Privacy Act of 1974: that information collected for one purpose may not be used for a different purpose without the individual’s consent.” *Id.*

5. Defendant violated the VPPA by knowingly transmitting Plaintiff’s and the putative class’s personally identifiable information to unrelated third parties.

### **FACTUAL BACKGROUND**

#### **I. The VPPA**

6. The origins of the VPPA begin with President Ronald Reagan’s nomination of Judge Robert Bork to the United States Supreme Court. During the confirmation process, a movie rental store disclosed the nominee’s rental history to the Washington City Paper which then published that history. With an eye toward the digital future, Congress responded by passing the VPPA. As Senator Patrick Leahy, who introduced the Act, explained:

It is nobody’s business what Oliver North or Robert Bork or Griffin Bell or Pat Leahy watch on television or read or think about when they are home. In an area of interactive television cables, the growth of computer checking and check-out counters, of security systems and telephones, all lodged together in computers, it would be relatively easy at some point to give a profile of a person and tell what they buy in a store, what kind of food they like, what sort of television programs they watch, who are some of the people they telephone. I think that is wrong.

S. Rep. 100-599, at 5-6 (internal ellipses and brackets omitted).

7. The VPPA prohibits “[a] video tape service provider who knowingly discloses, to any person, personally identifiable information concerning any consumer of such provider.” 18 U.S.C. § 2710(b)(1). The VPPA defines personally identifiable information as “information which

identifies a person as having requested or obtained specific video materials or services from a video service provider.” 18 U.S.C. § 2710(a)(3). A video tape service provider is “any person, engaged in the business, in or affecting interstate or foreign commerce, of rental, sale, or delivery of prerecorded video cassette tapes or similar audio-visual materials.” 18 U.S.C. § 2710(a)(4).

## II. The Facebook Tracking Pixel

8. Facebook is the largest social networking site on the planet, touting 2.9 billion monthly active users.<sup>2</sup> Facebook describes itself as a “real identity platform,”<sup>3</sup> meaning users are allowed only one account and must share “the name they go by in everyday life.”<sup>4</sup> To that end, when creating an account, users must provide their first and last name, along with their birthday and gender.<sup>5</sup>

9. Facebook generates revenue by selling advertising space on its website.<sup>6</sup>

10. Facebook sells advertising space by highlighting its ability to target users.<sup>7</sup> Facebook can target users so effectively because it surveils user activity both on and off its site.<sup>8</sup> This allows Facebook to make inferences about users beyond what they explicitly disclose, like

their “interests,” “behavior,” and “connections.”<sup>9</sup> Facebook compiles this information into a generalized dataset called “Core Audiences,” which advertisers use to apply highly specific filters and parameters for their targeted advertisements.<sup>10</sup>

11. Advertisers can also build “Custom Audiences.”<sup>11</sup> Custom Audiences enable advertisers to reach “people who have already shown interest in [their] business, whether they’re loyal customers or people who have used [their] app or visited [their] website.”<sup>12</sup> Advertisers can use a Custom Audience to target existing customers directly, or they can use it to build a “Lookalike Audiences,” which “leverages information such as demographics, interests, and behavior from your source audience to find new people who share similar qualities.”<sup>13</sup> Unlike Core Audiences, Custom Audiences require an advertiser to supply the underlying data to Facebook. They can do so through two mechanisms: by manually uploading contact information for customers, or by utilizing Facebook’s “Business Tools,” which collect and transmit the data automatically.<sup>14</sup> One such Business Tool is the Facebook Tracking Pixel.

FACEBOOK, CREATE A WEBSITE CUSTOM AUDIENCE, <https://www.facebook.com/business/help/1474662202748341?id=2469097953376494>.

12. The Facebook Tracking Pixel is a piece of code that advertisers, like Defendant, can integrate into their website. Once activated, the Facebook Tracking Pixel “tracks the people and type of actions they take.”<sup>15</sup> When the Facebook Tracking Pixel captures an action, it sends a record to Facebook. Once this record is received, Facebook processes it, analyzes it, and assimilates it into datasets like the Core Audiences and Custom Audiences.

13. Advertisers control what actions—or, as Facebook calls it, “events”—the Facebook Tracking Pixel will collect, including the website’s metadata, along with what pages a visitor views.<sup>16</sup> Advertisers can also configure the Facebook Tracking Pixel to track other events. Facebook offers a menu of “standard events” from which advertisers can choose, including what content a visitor views or purchases.<sup>17</sup> An advertiser can also create their own tracking parameters by building a “custom event.”<sup>18</sup>

14. Advertisers control how the Facebook Tracking Pixel identifies visitors. The Facebook Tracking Pixel is configured to automatically collect “HTTP Headers” and “Pixel-specific Data.”<sup>19</sup> HTTP Headers collect “IP addresses, information about the web browser, page

location, document, referrer and persons using the website.”<sup>20</sup> Pixel-specific Data includes “the Pixel ID and cookie.”<sup>21</sup>

### III. Paramount And The Facebook Pixel

15. CBS.com hosts and delivers thousands of videos.

16. CBS.com monetizes these videos through advertisements that sporadically interrupt the content.

**Figure 1**

---

<sup>20</sup> *Id.*

<sup>21</sup> *Id.*

17. CBS.com hosts the Facebook Tracking Pixel and transmits three distinct events to Facebook:<sup>22</sup>

**Figure 2**

18. Each metric independently and jointly permits an ordinary person to identify a video and the video’s content.

19. PageView discloses a webpage’s Universal Resource Locator (“URL”), along with whether a viewer has an account.

**Figures 3 & 4**

<sup>22</sup> This data derives from a tool created and offered by Facebook.

20. Button Click discloses the video title and when users click pause or play.

**Figure 5**

```

22. All three events, independently and jointly, permit an ordinary person to identify a video's content, title, and location.

23. When a visitor watches a video on CBS.com while logged into Facebook, Defendant compels a visitor's browser to transmit the c\_user cookie to Facebook. The c\_user

cookie contains that visitor’s unencrypted Facebook ID. When accessing the above video, for example, Defendant compelled the browser to send eight cookies, seven of which are visible here:

**Figure 7**

datr	MalzYjcua-RaV_XkUENrnj...	.facebook.com
c_user	100035966074568	.facebook.com

fr	0aUasdWAE6CNgc9k.A..	.facebook.com
wd	1920x969	.facebook.com

24. When a visitor’s browser has recently logged out of Facebook, Defendant will compel the browser to send a smaller set of cookies:

**Figure 8**

datr	MalzYjcua-RaV_XkUENrnj...	.facebook.com
locale	en_US	.facebook.com
sb	qqAzYsNOntC8nEyb7NO...	.facebook.com
fr	0aUasdWAE6CNgc9k.A..	.facebook.com
wd	1565x719	.facebook.com

25. The fr cookie contains, at least, an encrypted Facebook ID and browser identifier.<sup>23</sup> The datr cookies also identifies a browser.<sup>24</sup> Facebook, at a minimum, uses the fr cookie to identify particular users.<sup>25</sup>

26. If a visitor has never created a Facebook account, Defendant transmits three cookies, two of which are visible here:

<sup>23</sup> DATA PROTECTION COMMISSIONER, FACEBOOK IRELAND LTD, REPORT OF RE-AUDIT (Sept. 21, 2012), [http://www.europe-v-facebook.org/ODPC\\_Review.pdf](http://www.europe-v-facebook.org/ODPC_Review.pdf).

<sup>24</sup> FACEBOOK, COOKIES & OTHER STORAGE TECHNOLOGIES, <https://www.facebook.com/policy/cookies/>.

<sup>25</sup> FACEBOOK, COOKIES & OTHER STORAGE TECHNOLOGIES, <https://www.facebook.com/policy/cookies/>.

**Figure 9**

sb	0mKzYp5c...	.facebook.com
fr	0VLBOC1q...	.facebook.com

27. Missing from the above images is the first-party “\_fbp cookie,” which Defendant compels a browser to send in all three instances.

**Figure 10**

_fbp	fb.1.1655923391179.14...	.cbs.com
------	--------------------------	----------

28. The \_fbp cookie contains, at least, an unencrypted value that uniquely identifies a browser.<sup>26</sup> As with the fr cookie, Facebook uses the \_fbp cookie to identify users.

29. Without a corresponding Facebook ID, the fr cookie contains, at least, an abbreviated and encrypted value that identifies the browser. The \_fbp cookie contains, at least, an unencrypted value that uniquely identifies a browser. Facebook uses both for targeted advertising.

30. The fr cookie will expire after 90 days unless the visitor’s browser logs back into Facebook.<sup>27</sup> If that happens, the time resets, and another 90 days begins to accrue.<sup>28</sup>

31. The \_fbp cookie will expire after 90 days unless the visitor’s browser accesses the same website.<sup>29</sup> If that happens, the time resets, and another 90 days begins to accrue.<sup>30</sup>

<sup>26</sup> FACEBOOK, CONVERSION API, <https://developers.facebook.com/docs/marketing-api/conversions-api/parameters/fbp-and-fbc/>.

<sup>27</sup> See FACEBOOK, COOKIES & OTHER STORAGE TECHNOLOGIES, <https://www.facebook.com/policy/cookies/>.

<sup>28</sup> Confirmable through developer tools.

<sup>29</sup> See FACEBOOK, COOKIES & OTHER STORAGE TECHNOLOGIES, <https://www.facebook.com/policy/cookies/>.

<sup>30</sup> Also confirmable through developer tools.

32. The Facebook Tracking Pixel uses both first- and third-party cookies. A first-party cookie is “created by the website the user is visiting”—*i.e.*, CBS.com.<sup>31</sup> A third-party cookie is “created by a website with a domain name other than the one the user is currently visiting”—*i.e.*, Facebook.<sup>32</sup> The `_fbp` cookie is always transmitted as a first-party cookie. A duplicate `_fbp` cookie is sometimes sent as a third-party cookie, depending on whether the browser has recently logged into Facebook.

33. Facebook, at a minimum, uses the `fr`, `_fbp`, and `c_user` cookies to link to Facebook IDs and corresponding Facebook profiles.

34. A Facebook ID is personally identifiable information. Anyone can identify a Facebook profile—and all personal information publicly listed on that profile—by appending the Facebook ID to the end of Facebook.com.

35. Through the Facebook Tracking Pixel’s code, these cookies combine the identifiers with the event data, allowing Facebook to know, among other things, what CBS.com videos a subscriber has watched.<sup>33</sup>

36. CBS.com also uses “Advanced Matching.” With Advanced Matching, Defendant’s Pixel “look[s] for recognizable form field and other sources on your website that contain information such as first name, last name and email.”<sup>34</sup> The Facebook Tracking Pixel’s code

---

<sup>31</sup> PC MAG, FIRST-PARTY COOKIES, <https://www.pcmag.com/encyclopedia/term/first-party-cookie>. This is confirmable by using developer tools to inspect a website’s cookies and track network activity.

<sup>32</sup> PC MAG, THIRD-PARTY COOKIES, <https://www.pcmag.com/encyclopedia/term/third-party-cookie>. This is also confirmable by tracking network activity.

<sup>33</sup> FACEBOOK, GET STARTED, <https://developers.facebook.com/docs/meta-pixel/get-started>.

<sup>34</sup> <https://www.facebook.com/business/help/611774685654668?id=1205376682832142>

collect[s] that information, “along with the event, or action, that took place.”<sup>35</sup> This information is “hashed,”<sup>36</sup> meaning it is “[a] computed summary of digital data that is a one-way process.”<sup>37</sup> In other words, it “cannot be reversed back into the original data.”<sup>38</sup>

37. Defendant discloses this information so it can better match visitors to their Facebook profiles, which thereby allows Defendant to better track analytics and target its advertisements:

**Figure 11**

38. As part of Advanced Matching, Defendant has enabled “Automatic Advanced Matching for Partner Integrations”:<sup>39</sup>

**Figure 12**

<sup>35</sup> FACEBOOK, ABOUT ADVANCED MATCHING FOR WEB, <https://www.facebook.com/business/help/611774685654668?id=1205376682832142>.

<sup>36</sup> DEFINITION OF HASH, <https://www.pcmag.com/encyclopedia/term/hash>

<sup>37</sup> *Id.*

<sup>38</sup> *Id.*

<sup>39</sup> Facebook provides a corresponding look-up table: FACEBOOK, ADVANCED MATCHING, <https://developers.facebook.com/docs/meta-pixel/advanced/advanced-matching>.

39. “Partner Integrations” means Defendant employs another third-party to “install Meta Business Tools.”<sup>40</sup>

40. Defendant has also customized its Pixel to collect a subscriber’s full name, email, zip code, birthday, and gender.

**Figure 13**

<sup>40</sup> FACEBOOK, ABOUT FACEBOOK PARTNER INTEGRATIONS, FACEBOOK, ABOUT FACEBOOK PARTNER INTEGRATIONS, <https://www.facebook.com/business/help/1179210765468894?id=1205376682832142>

41. Defendant collects these parameters whenever a user first signs up for an account.

**Figure 14**

The screenshot shows a registration form titled "Create a CBS Account" with "Step 1 of 1" in the top right corner. The form is organized into several rows of input fields. The first row contains "Full Name" and "Email". The second row contains "Password" and "Zip Code". The third row contains "Birthdate" and "Gender" (with a dropdown arrow). Below the input fields, there is a checked checkbox with the text: "Yes, I would like to receive marketing communications, updates, special offers (including partner offers), and other information from the ViacomCBS family of companies." Below this, a line of text states: "By pressing 'Continue', you confirm that you have read and agree to the [Terms of Use](#) and acknowledge our [Privacy Policy](#)." At the bottom center of the form is a dark grey button with the word "CONTINUE" in white capital letters.

42. Defendant discloses these identifiers so Facebook can match them with a corresponding Facebook profile and link it to a subscriber’s subsequent activity on CBS.com.

43. Defendant knows Facebook will match the Advanced Matching parameters with a subscriber’s subsequent activity, thereby helping “[i]ncrease the number of attributed conversions,” “[i]ncrease [its] Custom Audience size,” and “[d]ecrease the cost per conversion.”<sup>41</sup>

44. By compelling a visitor’s browser to disclose the Advanced Matching parameters alongside event data for videos, Defendant knowingly discloses information sufficiently permitting an ordinary person to identify a specific individual’s video viewing behavior.

---

<sup>41</sup> FACEBOOK, ABOUT ADVANCED MATCHING FOR WEB, <https://www.facebook.com/business/help/611774685654668?id=1205376682832142>.

45. By compelling a visitor's browser to disclose the `c_user` cookie alongside event data for videos, Defendant knowingly discloses information sufficiently permitting an ordinary person to identify a specific individual's video viewing behavior.

46. By compelling a visitor's browser to disclose the `fr` and `_fbp` cookies alongside event data for videos, Defendant discloses information sufficiently permitting an ordinary person to identify a specific individual's video viewing behavior.

47. By compelling a visitor's browser to disclose the `fr` cookie and other browser identifiers alongside event data for videos, Defendant discloses information sufficiently permitting an ordinary person to identify a specific individual's video viewing behavior.

48. Facebook confirms that it matches activity on CBS.com with a user's profile. Facebook allows users to download their "off-site activity," which is a "summary of activity that businesses and organizations share with us about your interactions, such as visiting their apps or websites."<sup>42</sup> The off-site activity report confirms Defendant identifies an individual's video viewing activities.

#### **IV. Plaintiff and Class Members Subscribe to CBS.com**

49. As shown, to create an account, users must enter their full name, email, birthday, zip code, and gender. *See* Figure 14.

50. To entice users to enter their personally identifiable information, Defendant touts the exclusive benefits they will receive.

---

<sup>42</sup> FACEBOOK, WHAT IS OFF-FACEBOOK ACTIVITY?, <https://www.facebook.com/help/2207256696182627>. As discussed there, the Off-Facebook Activity is only a "summary" and Facebook acknowledges "receiv[ing] more details and activity than what appears in your Facebook activity." What is more, it omits "information we've received when you're not logged into Facebook, or when we can't confirm that you've previously used Facebook on that device."

Figure 15

51. By creating an account, users subscribe to CBS.com.

### III. Experience of Plaintiff

#### *Plaintiff Parcell*

52. In or around 2009, Plaintiff Parcell created a Facebook account.

53. In or around 2021, Plaintiff Parcell created a CBS.com account.

54. Since creating an account, Plaintiff Parcell frequented CBS.com to, among other things, watch television shows. Once Plaintiff Parcell created an account, Defendant disclosed her name, email address, birthday, zip code and gender to Facebook.

55. When Plaintiff Parcell watched videos on cbs.com, Defendant disclosed her event data, which recorded and disclosed the video's title and URL, along with every time Plaintiff

Parcell paused or played a video. Alongside this event data, Defendant also disclosed identifiers for Plaintiff Parcell, including the c\_user and fr cookies.

56. By disclosing her event data and identifiers, Defendant disclosed Plaintiff Parcell's personally identifiable information to a third-party.

57. Plaintiff Parcell discovered that Defendant surreptitiously collected and transmitted her personally identifiable information in July 2022.

### **PARTIES**

58. Plaintiff Parcell is, and has been at all relevant times, a resident of Des Plaines, Illinois and has an intent to remain there, and is therefore a domiciliary of Illinois.

59. Defendant Paramount Global is a Delaware corporation with its principal place of business at 51 West 52nd Street, New York, NY 10019. Defendant develops, owns, and operates CBS.com, which is used throughout New York and the United States.

### **JURISDICTION AND VENUE**

60. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1331 because it arises under a law of the United States (the VPPA).

61. This Court has personal jurisdiction over Defendant because Defendant's principal place of business is in New York, New York.

62. Venue is proper in this District pursuant to 28 U.S.C. § 1391 because a substantial part of the events or omissions giving rise to the claim occurred in this District.

### **CLASS ALLEGATIONS**

63. **Class Definition:** Plaintiff seeks to represent a class of similarly situated individuals defined as all persons in the United States who have Facebook and CBS.com accounts, and viewed videos on CBS.com (the "Class").

64. Subject to additional information obtained through further investigation and discovery, the above-described Class may be modified or narrowed as appropriate, including through the use of multi-state subclasses.

65. **Numerosity (Fed. R. Civ. P. 23(a)(1)):** At this time, Plaintiff does not know the exact number of members of the aforementioned Class. However, given the popularity of Defendant's website, the number of persons within the Class is believed to be so numerous that joinder of all members is impractical.

66. **Commonality and Predominance (Fed. R. Civ. P. 23(a)(2), 23(b)(3)):** There is a well-defined community of interest in the questions of law and fact involved in this case. Questions of law and fact common to the members of the Class that predominate over questions that may affect individual members of the Class include:

- (a) whether Defendant collected Plaintiff's and the Class's PII;
- (b) whether Defendant unlawfully disclosed and continues to disclose its users' PII in violation of the VPPA;
- (c) whether Defendant's disclosures were committed knowingly; and
- (d) whether Defendant disclosed Plaintiff's and the Class's PII without consent.

67. **Typicality (Fed. R. Civ. P. 23(a)(3)):** Plaintiff's claims are typical of those of the Class because Plaintiff, like all members of the Class, used CBS.com to watch videos, and had her PII collected and disclosed by Defendant.

68. **Adequacy (Fed. R. Civ. P. 23(a)(4)):** Plaintiff has retained and are represented by qualified and competent counsel who are highly experienced in complex consumer class action litigation, including litigation concerning the VPPA and its state-inspired offspring. Plaintiff and their counsel are committed to vigorously prosecuting this class action. Moreover, Plaintiff is able

to fairly and adequately represent and protect the interests of the Class. Neither Plaintiff nor her counsel has any interest adverse to, or in conflict with, the interests of the absent members of the Class. Plaintiff has raised viable statutory claims or the type reasonably expected to be raised by members of the Class, and will vigorously pursue those claims. If necessary, Plaintiff may seek leave of this Court to amend this Class Action Complaint to include additional representatives to represent the Class, additional claims as may be appropriate, or to amend the definition of the Class to address any steps that Defendant took.

69. **Superiority (Fed. R. Civ. P. 23(b)(3)):** A class action is superior to other available methods for the fair and efficient adjudication of this controversy because individual litigation of the claims of all members of the Class is impracticable. Even if every member of the Class could afford to pursue individual litigation, the court system could not. It would be unduly burdensome to the courts in which individual litigation of numerous cases would proceed. Individualized litigation would also present the potential for varying, inconsistent or contradictory judgments, and would magnify the delay and expense to all parties and to the court system resulting from multiple trials of the same factual issues. By contrast, the maintenance of this action as a class action, with respect to some or all of the issues presented herein, presents few management difficulties, conserves the resources of the parties and of the court system and protects the rights of each member of the Class. Plaintiff anticipates no difficulty in the management of this action as a class action.

**CAUSES OF ACTION**

**COUNT I**  
**VIOLATION OF THE VIDEO PRIVACY PROTECTION ACT**  
**18 U.S.C. § 2710, *et seq.***

70. Plaintiff hereby incorporates by reference the allegations contained in all preceding paragraphs of this complaint.

71. Plaintiff brings this claim individually and on behalf of the members of the proposed Class against Defendant.

72. Defendant is a “video tape service provider” because it creates, hosts, and delivers thousands of videos on its website, thereby “engag[ing] in the business, in or affecting interstate or foreign commerce, of rental, sale, or delivery of prerecorded video cassette tapes or similar audio-visual materials.” 18 U.S.C. § 2710(a)(4). In particular, Defendant leverages its video to derive substantial revenues from advertisements that it intersperses in each video. Defendant also uses the videos to collect and disclose viewers’ PII so it can later retarget them for advertisements.

73. Plaintiff and members of the Class are “consumers” because they have accounts with CBS.com. 18 U.S.C. § 2710(a)(1).

74. Defendant disclosed to a third party, Facebook, Plaintiff’s and the Class members’ personally identifiable information. Defendant utilized the Facebook Tracking Pixel to compel Plaintiff’s web browser to transfer Plaintiff’s identifying information, like her Facebook ID, along with Plaintiff’s event data, like the title of the videos she viewed.

75. Plaintiff and the Class members viewed videos using CBS.com.

76. Defendant knowingly disclosed Plaintiff’s PII because it used that data to build audiences on Facebook and retarget them for its advertising campaigns.

77. Plaintiff and Class members did not provide Defendant with any form of consent—either written or otherwise—to disclose their PII to third parties.

78. Nor were Defendant’s disclosures made in the “ordinary course of business” as the term is defined by the VPPA. In particular, Defendant’s disclosures to Facebook were not necessary for “debt collection activities, order fulfillment, request processing, [or] transfer of ownership.” 18 U.S.C. § 2710(a)(2).

79. On behalf of herself and the Class, Plaintiff seeks: (i) declaratory relief; (ii) injunctive and equitable relief as is necessary to protect the interests of Plaintiff and the Class by requiring Defendant to comply with VPPA’s requirements for protecting a consumer’s PII; (iii) statutory damages of \$2,500 for each violation of the VPPA pursuant to 18 U.S.C. § 2710(c); and (iv) reasonable attorneys’ fees and costs and other litigation expenses.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff seeks a judgment against Defendant, individually and on behalf of all others similarly situated, as follows:

- (a) For an order certifying the Class under Rule 23 of the Federal Rules of Civil Procedure, naming Plaintiff as representative of the Class, and naming Plaintiff’s attorneys as Class Counsel to represent the Class;
- (b) For an order declaring that Defendant’s conduct violates the statutes referenced herein;
- (c) For an order finding in favor of Plaintiff and the Class on all counts asserted herein;
- (d) An award of statutory damages to the extent available;
- (e) For punitive damages, as warranted, in an amount to be determined at trial;
- (f) For prejudgment interest on all amounts awarded;

- (g) For injunctive relief as pleaded or as the Court may deem proper; and
- (h) For an order awarding Plaintiff and the Class their reasonable attorneys' fees and expenses and costs of suit.

**JURY DEMAND**

Pursuant to Fed. R. Civ. P. 38(b)(1), Plaintiff demands a trial by jury of all issues so triable.

Dated: July 14, 2022

Respectfully submitted,
